

Culture and Sights

London is one of the **most culturally vibrant** cities in the world. From galleries, live comedy and museums to design pieces. The British metropolis places a particularly high value on cultural offerings. Especially in London's art scene, there is a lot going on, just waiting to be explored by you!

Tate Modern and Tate Britain

Tate Gallery is a network of four galleries in the UK: Tate Britain, Tate Liverpool, Tate St Ives and Tate Modern. Entry to the gallery is free – there's no need to book. Tate Modern has over a hundred years of art, from modernism in the early 1900s, to exciting works created today. Tate Britain's collection is focused on art made in Britain.

Science Museum

Over 15.000 objects are on display in Europe's most visited technology and science museum. The Interactive Galleries bring science from far and wide to life. 3D simulations or weather phenomena are explained from a purely scientific point of view.

Sky Garden

One of the most beautiful viewpoints over the whole of London is on the 35th floor, just 150 metres above street level, the Sky Garden. Entry to the "walkie-talkie" building is free, but must be booked in advance. The 360-degree view takes place on the last three floors of the skyscraper, both indoors and outdoors.

Garden at 120

The Garden at 120 is a really beautiful rooftop terrace right in the heart of the City of London. Its central location makes it easy to include in whatever daytime programme you have planned. Especially if you combine the Sky Garden with the Garden at 120. And the best thing is, of course, that entry is completely free.

Royal Greenwich Observatory

The Greenwich Meridian Line, the prime meridian, is the centre of world time defined by a passage instrument and a survey baseline in the courtyard of the Royal Observatory. Every day at 1pm you can watch the "ball drop" on the dome. A panel on the façade still points out the zero longitude ... a very popular photo spot.

Victorian Bath House

Hiding down a side-street off busy, bustling Bishopsgate, very near to Liverpool Street Station, you will find this beautiful hidden treasure of a building. The former Turkish Bath House reopened as an event venue and restaurant in 2016. It looks absolutely stunning inside with all the beautiful restored decorations. But the prices are very extra too.

St. Paul's Cathedrale

At the end of the 17th century it was the tallest building in the city, now it is a prominent landmark in London's cityscape. The church, which is cruciform in plan, is the resting place of numerous recognised and royal figures. Visits to the masses and the interior are possible daily between 10 am and 6 pm. Those wishing to visit the crypt and observation platforms must book tours and tickets for a fee. I recommend arriving before noon to enjoy free aisles and panoramic views.
